

Dosapati Sai Santhosh

Kakinada, Andhra Pradesh | saisanthoshdosapati2155@gmail.com | +91-9100402155 | [linkedin.com/in/sai-santhosh-905998293](https://www.linkedin.com/in/sai-santhosh-905998293) | github.com/Saisanthosh2155 | leetcode.com/u/_Sai_santhosh_

Professional Summary

Motivated Artificial Intelligence and Machine Learning student with strong foundations in Python, SQL, Machine Learning, and Computer Vision. Experienced in developing intelligent applications, data-driven solutions, and real-time systems using technologies such as OpenCV, Scikit-learn, and Pandas. Passionate about applying AI, machine learning, and data science techniques to solve real-world problems and build innovative, scalable solutions. .

Education

B.Tech – Data Science

2022–2026

Kakinada Institute of Engineering and Technology (KIET)

CGPA: 7.3/10

Technical Skills

- **Core:** Python (Pandas, NumPy, Scikit-learn, Matplotlib, Seaborn), SQL, Excel, Power BI
- **ML Fundamentals:** Regression, Classification, Feature Engineering, EDA, Model Evaluation, Tuning
- **Advanced ML/CV:** Deep Learning, YOLOv8, OpenCV, DeepSORT, Anomaly Detection
- **Tools:** Jupyter, Git/GitHub, VS Code, Databricks (Notebooks, Spark basics)
- **Other:** Statistics, Data Preprocessing Visualization, Real-time Processing, Agile

Projects

Weekly Coding Contest Platform

2024

React.js, Node.js, Express.js, MongoDB

- Developed a MERN stack portal for teachers to manage student records and academic performance
- Implemented secure authentication and authorization for teacher login and signup
- Built CRUD functionalities for adding, updating, deleting, and viewing student details and marks
- Designed responsive UI components and integrated backend APIs for seamless data management

ThreatVision – Real-Time AI Surveillance & Anomaly Detection

2025

Python, YOLOv8, DeepSORT, OpenCV

- Built a real-time multi-object detection and tracking pipeline with persistent IDs
- Implemented rule-based anomaly detection (loitering, abnormal speed) with alerts and CSV logging
- Supported modular inputs (webcam, MP4, RTSP) with live visualization (bounding boxes, FPS, counts)

Gesture-Control-PC | Hand Gesture-Based Desktop Automation

2025

Python, OpenCV, MediaPipe, PyAutoGUI, Pygame

- Built a gesture-controlled desktop automation system using computer vision and real-time hand tracking.
- Implemented hand gestures for cursor movement, clicking, scrolling, and window control.
- Integrated MediaPipe, OpenCV, and PyAutoGUI for gesture recognition and system automation.

Experience

Data Science & ML Contributor — Global Coding Club, KIET

2023–Present

- Collaborated on ML projects & hackathons using Python, Pandas, Scikit-learn
- Built classification/regression models with focus on clean code & documentation
- Practiced Git workflows and end-to-end project delivery in team settings

Certifications

- Foundations of Modern Machine Learning — IIIT Hyderabad
- Data Analyst — OneRoadmap
- Python Certificate — Edyst

Achievements

- Runner-up in Hackathon (data-driven solution)
- Active project contributor, Global Coding Club at KIET
